### Forward Looking Statements

This press release may contain forward-looking information and forward-looking statements (collectively, "forward-looking statements") within the meaning of applicable securities legislation, which reflect MCI's current expectations regarding future events. Forward-looking statements in this press release include statements with respect to the timing of the release of MCI's financial results for the quarter ended March 31, 2022 and the timing of its earnings call to discuss those results. The words "will", "expanding", "growing" and other similar expressions identify forward-looking statements. Such forward-looking statements are based on various assumptions, including the time required to prepare and file MCI's financial results, and are subject to numerous risks and uncertainties, many of which are beyond MCI's control, including execution risk, market risk, industry risk, the impact of general economic conditions and competition from other industry participants and stock market volatility, which could cause actual results and events to differ materially from those that are disclosed in or implied by such forward-looking statements. As such, readers are cautioned not to place undue reliance on the forward-looking statements, as no assurance can be provided as to future results, activity or achievements. The forward-looking statements contained in this news release are made as of the date of this news release and, except as required by applicable law, MCI does not undertake any obligation to publicly update or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise. The forward-looking statements contained in this document are expressly qualified by this cautionary statement. Please review the factors discussed under "Risk Factors" in the final prospectus of MCI dated December 29, 2020 and its Annual Information Form dated March 31, 2022, each filed under the MCI's SEDAR profile at [www.sedar.com](http://www.sedar.com) for a more fulsome discussion of risk factors affecting the MCI.
